

# Product Fact Sheet

## Kandesn® Nail Lacquers

### FASHION AT YOUR FINGERTIPS

Our Kandesn® Nail Lacquers come in a beautiful range of colors inspired by nature. Long-wearing and quick-drying, our exclusive formula is easy to apply and goes on smoothly and evenly. They also make perfect gifts to introduce Sunrider's signature beauty products and color cosmetics.

### PHILOSOPHY OF REGENERATION®

Most nail polish brands are filled to the brim with harsh chemicals that are not only bad for the environment, but can possibly harm you with harsh fumes and cause brittle nails. Kandesn® Nail Lacquers contain naturally derived plant- and mineral-based ingredients to ensure skin health.

### INGREDIENT HIGHLIGHTS

#### CAMPHOR

Camphor is a substance derived from the tree cinnamomum camphora. It's been used medicinally for centuries to soothe the skin of itching, irritation, and pain.

#### HECTORITE

A naturally occurring clay mineral, hectorite is nontoxic and isn't absorbed into the bloodstream to any significant degree. In addition, it's non-irritating to the skin and is unlikely to cause problems even for people with sensitive skin.

#### NITROCELLULOSE

Produced from cellulose, nitrocellulose is a naturally occurring component in the cell wall of green plants. Its excellent adhesion property to the natural nail makes it an ideal ingredient in the nail lacquer formulation.

### FAQS

**Q:** Why should I buy this product instead of a retail brand nail lacquer?

**A:** Kandesn® Nail Lacquer is a nature-based, nontoxic, skin-friendly, eco-friendly alternative to conventional synthetic-based nail polish. Naturally, it's also 100% cruelty free.

### RECOMMENDATION

Apply 2 to 3 thin coats. Allow Nail Lacquer to dry thoroughly between applications.
