SunSmile® Herbal Toothpaste

OWNER EXPERTISE
FORMULATION

SELF-MANUFACTURED

MADE WITH NATURAL
INGREDIENTS

BENEFITS

- Gently cleans and polishes teeth with herbal extracts
- Free of fluoride and sodium lauryl sulfate
- Doesn't leave a gritty film
- No artificial sweeteners, colours, or flavours
- Safe for the entire family

TOOTHPASTE YOUR WHOLE FAMILY CAN SMILE ABOUT

Our toothpaste leaves your mouth feeling clean and refreshed with no gritty film or aftertaste. Its natural formula delivers powerful cleaning action without the potentially harmful ingredients found in regular toothpastes. It's uniquely formulated with natural enzymes that remove food particles left between the teeth for thorough cleaning. Safe to swallow and with a refreshing mint taste kids love, it's the ideal choice for the entire family.

PHILOSOPHY OF REGENERATION®

Sunrider leverages its advanced technology and unsurpassed expertise in formulation to achieve the highest standards of concentration, safety, and effectiveness. Our herbal toothpaste delivers powerful yet gentle cleaning action that's safe for tooth enamel and the soft tissue of the mouth. Made with natural ingredients, it contains no fluoride or artificial sweeteners and colours. Its minty green colour and flavour come from concentrated herbs.

FAQS

Q: How is SunSmile® Herbal Toothpaste different from other brands?

A: The main ingredients in most regular toothpastes are potentially harmful and can irritate gums, mouth tissue, and sensitive teeth. The United States FDA (Food & Drug Administration) has mandated that all fluoride toothpastes sold in the U.S. carry a poison warning on the label. This is especially alarming because many types of toothpaste are artificially flavoured to appeal to children, with some even tasting like candy. And even if the toothpaste isn't swallowed, potentially harmful ingredients can be absorbed through mucosal lining.

SunSmile® Herbal Toothpaste is a better, healthier choice because it doesn't contain artificial or harmful ingredients. It's formulated with baking soda and a combination of fruit enzymes and herbal extracts to deliver powerful yet gentle, safe cleaning action. Containing no artificial colours or sweeteners, its minty green flavour and colour come from concentrated herbal extracts.

RECOMMENDATION

Brush your teeth regularly with SunSmile® Herbal Toothpaste: in the morning, after you eat, and at night, before you go to sleep.
