And it not only thoroughly cleanses, it moisturises at the same time, so your hands won't feel dry or cracked, just clean, soft, and refreshed.

### FAQS

**Q:** Why is carrying a portable hand cleanser a good idea?

**A:** It's estimated that about 80% of infectious diseases are transmitted by touch. And the simple act of washing your hands is the most effective way to keep you from picking up viruses and passing them on to others. So when you're out and about, take along Kandesn® Hand Cleansing Gel to keep your hands clean. Simply put it in your pocket or purse for effective waterless cleansing on the go.

**Q:** How is this product different from other cleansing gels?

**A:** Other hand cleansers contain high amounts of alcohol (typically ranging from 45% to 95%) that can be drying and damaging to the skin. Kandesn® Hand Cleansing Gel uses a combination of herbal moisturisers and alcohol (much less than typical brands) to clean hands while preserving the health and pH balance of the skin.
