Kandesn[®] Balancing Splash

OWNER EXPERTISE
FORMULATION

SELF-MANUFACTURED

MADE WITH NATURAL
INGREDIENTS

BENEFITS

- Cleans skin impurities
- Tightens pores and tones skin
- Gently invigorates for a healthy glow
- Restores proper pH level
- Prepares skin for moisturisation
- Made with plant-based ingredients

FOR SKIN THAT'S REFRESHED AND "KANDESN CLEAN"

Kandesn[®] Balancing Splash is designed to finish cleansing and begin your moisturising regimen. Infused with concentrated botanical extracts, it gently firms, tones, and stimulates the skin. Expertly made with a slightly acidic pH that's in harmony with healthy skin, this advanced formula is suitable for all skin types.

PHILOSOPHY OF REGENERATION[®]

Dr. Tei-Fu Chen has applied his Philosophy of Regeneration[®] to skin care and has achieved beautiful results. This gentle formula uses the finest herbal and botanical ingredients, which are expertly formulated to promote the health, balance, and vitality of your skin. We never use harmful ingredients such as mineral oil, petroleum by-products, or animal-derived proteins and oils, which can actually suffocate the skin and cause premature aging.

INGREDIENT HIGHLIGHTS

CUCUMBER

Providing natural emollient properties, cucumber is used in skin care to soften and hydrate the skin. Research also indicates that the lutein component of cucumber may help suppress melanogenesis, the process that leads to skin discolorations.

ROSEMARY LEAF

A perennial herb, rosemary's primary reputation in skin care is its ability to remove excess oil. It has a great astringent property, which can help refresh and rebalance oily skin without causing excess dryness.

SODIUM PCA

This naturally occurring humectant (moisturiser) has high water-absorbing properties and even has the ability to absorb moisture from the air. It holds several times its weight in water.

FAQS

Q: What does pH balance mean?

A: The term pH stands for "potential hydrogen" and is used to describe the acid-alkaline ratio of a substance, which ranges from 0 (the most acidic) to 14 (the most alkaline). The skin's barrier, known as the acid mantle, is responsible for keeping in lipids and moisture while blocking germs, pollution, toxins, and bacteria. To function at its best, the acid mantle should be slightly acidic, at a 5.5 pH balance.

Q: When should I use Kandesn[®] Balancing Splash?

A: Kandesn[®] Balancing Splash is designed to use after cleansing and before moisturising the face to achieve a healthy pH balance.

RECOMMENDATION

Apply to a clean face with a cotton ball or pad in a light upward and outward motion. Avoid eye areas. Then apply Deep Moisture Lotion for best results.
